The cost of these wars sine-1883 was, on a very moderate calculation, \$9,565,000,000—an amount which would pay for the construction of railways to an extent equal to the circuit of OCULIST the globe (23,000 miles) at \$400,000 per mile; or it would build and fill with objects of art and interest 1530 such magpificent institutions as the Crystal Palace at Sydenham, at \$5,000,000 each.

STATE ITEMS.

—A grand tournsment will be held at the grounds of the Wilson County Agricultural and Mechanical Association, at Lebanon, in this State, on Saturday, the 221 of May, the entire proceeds of which will be appropriated to the benefit of the Tennessee Orphan Asylum, at Clarksville. The officers of the tournament ville. The officers of the tournament are Gen. A. P. Stewart, President; Jas. H. Britton, Tressurer; and J. J. Wheeler, Secretary. This is a praiseworthy movement on the part of the citizens of Wilson county, and we hope to see their example imitated in other localities.

-The Banner says: The Directors of the Tennessee Agricultural and Mechanical Association met at their rooms, over Hamilton & Conningham's store, College street, yesterday morning, to fix the premiums to be awarded at the State Fair next fall. They only succeeded in partially arranging the prentiums. The list will be completed at their next regular meeting. Ten thousand dollars in premiums will be offered. The Directors How They "Do These Things" intend making the Fair one of the grandest exhibitions of the kind ever held in CURE OF EVERY FORM Tennesses. Thousands of people will doubtless attend it from every quarter.

-The Jackson Tribune of Saturday says; The Radical Convention which met at Pardy, last mouth, inspired with a spirit of progress, without due attensims of ancient office hold--Mark Twain is to marry and give up of quartz and hugget gold. The captain closely round the pit, and a pair of game ers, started out a bran new tienet, con--Mark Twain is to marry and give up and crew of the vessel confirm his state morous literature.

-Strawberry suppers are all the go in miles from Kadalk Island upon the noticed that the combs of the fewis were paratively young man, was nominated Ruyak river, which debouches into Cook cut clean; all superfluous feathers were for the Senate, vice John Aldridge, deriver, by a Russian engineer who was removed; and to the lower part of the capitated. Mr. Abernathey was nominated for the Lower House, vice Capt. Elijah Hodges, whose official head was also carried to the block. Republics are ungrateful, and so are parties, but the defeated candidates must pray for Tennessee. She needs it. We understand prominent before the Convention, is likely to become an independent candidate. The gentlemen nominated are reported to represent the extreme views of

the Republican party. the Jackson Tribune says: Despite the stupidity and spathy of Memphis, this great line of communication is rapidly approaching completion, Gen. Forrest has gone to work on the Selma end. The route agreed open runs through Columbus and Aberdeen, via Okolona and Holly Springs. This fortunate location of the line insures an enlistment in its behalf of much of the brain and capital of Mississippi, and places the building of -O: the Memphis and Selma Railroad of Mississippi, and places the building of the road beyond my contingency. Gan. Forrest did a wise thing when he quit politics and concentrated his great pow and interests of the South. He should never soil his green military laurels in the cesspool of the partizan. He has a

To the Owners of Real Estate in Ten-

Vice-President. THE COMPANY KNOWN TO THE PUBchel Chevaller, Msj.-Gen Rarnes (Surgeon-General of the United States army), M. Vigo Roussillon, and other

> follows: 'The object of this Company is to construc "The object of this Company is to construct or otherwiss to procure and maintain one or more steamboats, or other vessels, to run on and navigate the Massissippi river, or its tributaries, for the purpose of carrying freight, mails and passengers; to construct gooks wharves, buildings and such other constructions as may be necessary to the building and repairing of vessels, and generally to exercise such incidental powers and privileges as are hereby or may be conferred on them for the purposes aforeant.
>
> The Company propose, under the provisions

hereby or may be conterred on them for the purposes abressed.

The Company propose, under the provisions of this charter to construct a line of steamers to run between the distrent ports on the Mississipp river and its tributaries. They will be constructed upon the low-pressure principle; they will carry less team; they will make better time, and be in all respects more safe than any description of boats ever placed upon our waters. Divided into distinct compartments, if disaster, whether by fire or snags, shall happen to one, the boat is not endangered. In case of fire, apparatus for turning steam upon it will be provided, and it is demonstrated that stoam is the most effective extinguisher of fire. In case one compartment is tooken through by contact with snags, and fills with water, the others are not endangered, and the boat cannot sink, as rumps, provided for such an emergency, will be in instant operation, safety to pussengers and treight is a great end, worthy of the struggle of the people of the Mississippi Valley.

Valley.

Nearly three numered thousand dollars in money and work has already been subscribed to the capital stock of the Company. The Louisian Legislature has passed a bill subscribing one hundred thousand dollars of stock to the Company. An additional sum of that amount will, without a denbt, be subscribed by the same body. The Company have resolved to the same body. The Company have resolved to the same body. The Company have resolved to which they desire to call the attention of owners of real extre. In the southern States, on account of the disorganized condition of labor, lands are an incumbrance. Vast tracts that yield no revenue to the proprietors, pay exorbitant taxes, and thus cripple their only productive resources. This Company propose to take these lands at a fair vain alon and issue to the owners their stock in feu. If lands shall enhance in value, so will the stock enhance in value, and thus the land proprietor will carry in his pocket the equivalent of his lands, to be converted into money or property without delay. The success of this great enterprise is beyond question. The stocknolder, in addition to the benefit of the enhanced value of his lands, will be part owner of a line of boats, and be cutified to dividends in their earnings. Persons wishing to exchange lands for the stock of the Company will send to the Agent at Mamphia a description of them, their productive qualities, the limber, bottom or upland; whether overflowed or not; if overflowed, what proportion; how near to county-town, to relife the description of these secessary to Valley, Nearly three hundred thousand dollars in proportion; how near to county-town, to rail-road, depot, river, and all facts necessary to

afford the Company a satisfactory idea of the land. This may be done by certificates of reliable, disinterested persons residing in the neighborhood. The present actual value of the land may be proved in the same manner. The party offering lands must state in his proposition the lowest figures he will take. The Company will not give exorbitant prices. The company with forger expression prices. The silic rount be described by fudgments, no see see deeds of trust, lax litles, or otherwise. This may be shown by official certificates of judges, clerks, abriffs, or the opinions of respectable attorneys. This is believed to the best opportunity to dispose of surplus ands in the South and West that has yet been proved by officers. or can be offered.

Analy of the best and wealthlest citizens of the South and West are warnely embarked in the enterprise. The General Headquartess of the Company are in New orleans, but agencies exist in all the principal cities. The enterprise has been endorsed by Underwriters, chambers of Commerce, Empireers, Mechanics, practical navigators, and all classes of practical treft.

The foregoing facts are submitted to the pub-c in the confident belief that they will be un-erstood and appreciated. Board of Directors for the Present Tear ohn A. Grow. I. Ed. Montgomery, N. S. Otis, Dr. J. R. Watkins, William Creevy, F. Y. Rockett,

BUTTER.

Ask the attention of a'l interested in the re-

THE

EXTRACT OF BUTTER PLANT. A brist allusion to the origin of this import ani discovery may not prove unintere-ling. Among the authenticated records of the re-newmed Captain Cook's voyage around the world, is found the statement, that while soword, is found the statement, that while so-journing for a short time on the Hamilton toast of South America, he observed the na-tives using, in the preparation of their food, a peculiar oil, which, upon examination, he cound to possess the appearance, taste and favor of Butter; upon further inquiry, how-ever, he accertained that it was staiply a sub-stance that the majures destilled in a semis-subor that the natives distilled in a crude and eriest manner from a rich and luxuriab

ago an eminent French chemist, while on a professional visit to the troptes, made numer-ous experiments with this remarkable pro-duction of nature, and succeeded in extracting a concentrated essence of the plant. The for-mula- for its preparation, and the Sole Right for the sale in this country are the exclusive property of this company, by whom it was purchased from the original discoverer. We claim for this remarkable, yet simple and per-fectly hymnics proporation. cutter.
2d. That Butter, which from age or whatever cause, may be strong, rancid, streaked or coarse-grained, and cumparatively treises for general use by the aid of this Extract is restored to its original treshness and sweet cas, fine grain and even rolor.
3d. By the use of this Extract, one pound of deir-loca, fresh Butter is acqually made from one pint of milk.

deli-loos, fresh Entier is actually made from
one pint of milk.

4th. That a pure and excellent table Butter
can be made, at a cost of from 15 to 30 cents per
pound. The chief expense wherein being finiter, which is the essential bease.

5th. That flotter manufactured by the sid of
this Entract is equal in every respect to the
best Entier made by the ordinary method.
6th. The Extract, after thorough analysis,
by able chemists, is pronounced perfectly free
from any deleterious substance, the logredients being purely of a regardable instance.
The In proof of the foregoing assortions, the
factory of this company is making one ton of
Sutter per day, which meets with ready sale
in the New York market, and is consumed
from the tables of the first hotels, restaurants
and private families in this city and elsewhere.
A sample package of the Extract cufficient
to make fifty pounds of limiter), with ful directions for use, will be sent to any address on
the receipt of St.

Of MINTERN As all articles of real merit are

etions for use, will be second of the second of the court AUTION.—As an articles of the would specient to spurious installions, we would specify caution the public against counterfolts I wornhiest installions, advertised as powers, compounds size, as the Extract of the tier Frant is prepared and sold only by The Economy Butter Company.
